About This Workshop

Most people believe leadership travels in only one direction: from the top down. This premise is false, as it assumes that all leadership is based on position. 360° Leadership will teach you that influence, not position, is the key to effective leadership. No matter where you are in the organization, you can learn to lead in every direction. Whether someone is "above" you, "below" you, or "beside" you, you can influence them in a positive way that delivers extraordinary results.

During this interactive workshop, you will learn how to develop your influence from anywhere in the organization. We will explore the myths of leading when you are not in charge, the challenges of leading in the middle of the pack, and how to lead when your boss can't (or won't).

What You'll Learn

- The value of increasing your influence at every level of the organization.
- How to identify and grow your current level of leadership.
- Methods to expand your influence with others.
- Myths about leading from the middle of an organization.
- Practical strategies for leading down, across, and up in any situation.
- How to overcome the frustrations of working for a bad boss.
