

THE GUARDIAN'S PATH

LEADERSHIP DEVELOPMENT PROGRAM

The future of your organization is the growth of your people.

There are many paths, but only one path leads to true growth and development. The Guardian's Path is our commitment to developing leaders who are fully devoted to improving themselves, their organizations, and the lives of those they lead.

The Guardian's Path serves as a roadmap for leadership growth at three key levels:

- 1 Self - Leadership
- 2 Team Leadership
- 3 Organizational Leadership

Our Leadership Development Program consists of three courses that build on each other. Each workshop aids leaders in expanding their influence and amplifying their impact. To learn more about these courses or to view upcoming workshops, click on the course title below.

[Developing the Leader Within](#)

[Developing the Leaders Around](#)

[Developing a Culture of Leadership Excellence](#)

Anyone who remains committed to completing the Guardian's Path will grow their influence, increase their leadership abilities, and join a community of purpose-driven Guardians. All graduates of our program will be recognized with our signature Guardian Leader Award.

"I truly appreciate the method of instruction and the material presented during all three of the Guardian's Path courses. The passion and sincere desire to deliver an inspirational message of leadership and commitment has unlimited potential to provide positive influence to anyone who is willing to listen, participate in the conversation, and be inspired. Leadership development is a lifelong journey that takes us down many paths. **The Guardian's Path stands out amongst the other paths I have walked thus far.**"

- Lt. Max Nowinsky - Savannah Police Department

Guardian Leader Award
2021 Recipient Lt. Max Nowinsky
